Letter from the President of the College

In these pages I trust you will find some new and enlightening information about Imperial Valley College. We have an amazing story to tell and the numbers here are evidence of that. This past spring (2015) saw the highest number of graduates to have ever passed through the college's doors since it opened in 1962.

What follows is certified final data from 2013-14, the last complete academic year as this is being written. From all of the preliminary data we have seen for the 2014-15 academic year, the number of degrees and certificates awarded will again exceed the data below.

- Over $27 million dollars was awarded in grants, scholarships, and financial aid during 2013-14
- Fall 2014 enrollment was 8,067;
- In 2013-14, 59% of all enrolled students are first generation students
- 1,376 degrees and certificates were awarded in 2013-14; 17% increase from 2012-13, 67% increase from 2012-12 graduates
- Median Credit Section Size was 27

And that is just a sampling. I trust the data and other information provided in this Fact Book will help answer questions you may have about the college.

Victor M. Jaime, Ed.D.
Superintendent/President
