SDSU note: Upon completion of emphasis, students have the option to take the Registered Environmental Health Specialist (REHS) certification examination with the State of California. Prior to the examination, students should take an additional year of physics laboratory courses.

SDSU time limitation: All public health courses taken for the major must have been taken and completed within seven years of the granting of the undergraduate degree. Courses taken prior to the seven year rule must be repeated. This policy applies to courses taken at SDSU or transferred from another four-year college or university or appropriate courses from a community college. No exceptions will be made to this policy.
